

M-SERIES 8K NVRs

Super High Definition Video Data in True 8K

PRODUCT HIGHLIGHTS

Access & Storage

Supports up to 8-, 16-, 32-, or 64-channels of cameras

Transferring

Super I Frame technology ensures the integrity of data streams, reducing frame loss and delay

High Bandwidth

Supports 64 channels input and output with a bandwidth of up to 400 Mbps. The bandwidth does not drop when RAID is enabled

Decoding

32-ch 1080p @ 30 fps
2-ch 32 MP @ 30 fps

Outputting

Supports up to 8K (7680x 4320) or dual 4K resolution video output only for 4 HDD slots and above models

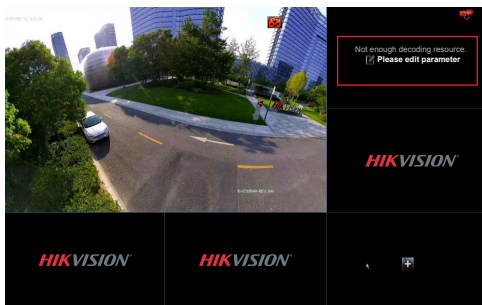

HDD Capacity

Supports 2, 4, 8, or 16 HDD slots, and up to 14 TB capacity per HDD

KEY BENEFITS

▶ EXPANDED LIVE VIEW

The stronger the decoding capability, the more video feeds can be viewed live at the same time on the NVR.

DS-7732NI-I4

Live view of 1 × 32 MP camera

▶ PLAYBACK MORE

The number of simultaneous video playback channels mainly depends on the NVR's decoding capability. The more playback channels, the stronger the NVR decoding capability.

DS-7732NI-I4

Playback of 1 × 32 MP camera

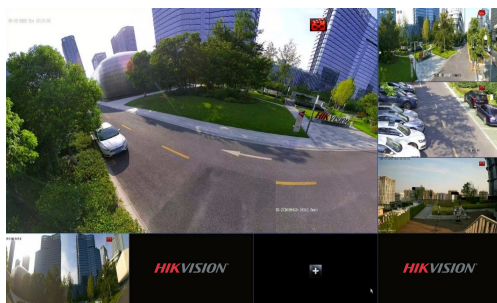

▶ 8K OUTPUT

8K resolution videos can be displayed on an 8K monitor, which look clearer and more natural.

DS-7732NI-I4

4K (3840x2160) resolution images even though on an 8K Monitor

DS-7732NI-M4

Live view of 1 × 32 MP camera and 4 × 8 MP cameras

DS-7732NI-M4

Playback of 1 × 32 MP camera and 4 × 8 MP cameras

DS-7732NI-M4

8K (7680x4320) resolution images on an 8K Monitor

DUAL 4K OUTPUT

M-Series NVRs are compatible with more resolutions, including dual 4K output. You can select the image resolution that you need.
